

Sikh Gurdwara San Jose College Prep Program *Proficiency In Math Skills*

Supercharge Your Math Skills with Our Common Core Standards -Aligned College Prep Program!

Mathematics is the universal language that underpins our understanding of the world. A strong foundation in math not only propels us through academic endeavors but also empowers us with problem-solving skills vital for life. Yet, for many students, the journey through math can seem daunting and filled with challenges. At our Math Tutoring Program, we believe that mathematical excellence is achievable for every student.

Master Your Schoolwork: We know how important it is to keep up with what's happening in the classroom. Our program is fully aligned with the Common Core State Standards (CCSS). That means you're not just learning math; you're learning the right math—the kind that matches your school curriculum.

Check Your Progress: Ever wondered how well you're really doing in math? We're here to help you find out. Throughout our program, we'll have multiple tests. These aren't scary exams; they're like checkpoints on your journey to math mastery. They help you see what you've nailed and where you could use a bit of extra help.

Homework Heroes: Stuck on a tricky math problem from your school homework? Don't worry; tutors at CPP are your homework heroes! They're ready to swoop in and guide you through those challenging assignments, turning frustration into understanding.

Go the Extra Mile: Alongside your regular high school classes, you'll get 20-30% extra revision opportunities in CPP classes. Think of it as a turbo boost for your math skills! This is your golden chance to delve deeper into the subject and truly shine in your studies.

Whether you're struggling with a tricky concept or aiming to take your math skills to the next level, we invite you to join us on this incredible adventure. Together, we'll unlock your full math potential. Get ready to conquer math with confidence and enthusiasm! Parents, rest assured, your child's math journey will be both fun and fulfilling, guided by capable hands.

Note: This Program is in person on Sundays in Guru Nanak Khalsa School, San Jose, between 9:30-12:30 PM.
